CRIME IN WASHINGTON STATE - 2002

SUMMARY

RATE OF INDEX CRIME - Index crimes in Washington State totaled 305,907 for 2002, constituting 51.2 offenses per 1,000 population. This represents an increase of 0.02% in the total number of index crimes over those reported in 2001.

VALUE OF PROPERTY STOLEN AND RECOVERED- Property valued at \$326,929,941 was reported stolen in 2002. Of this amount, \$123,271,398 or 37.7% was recovered. Property stolen shows a decrease of 1.5% over 2001.

NUMBER OF LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED- There was one law enforcement officer killed feloniously in 2002. A total of 1,144 law enforcement officers were assaulted during the year. Assaults on officers showed a decrease of 2.5% from the 1,173 officer assaults reported in 2001.

RATE OF CRIME CLEARANCES- There was a 16.7% clearance rate for all index crimes reported in 2002. The clearance rate for 2001 was 17.2%.

ARRESTS- A total of *245,231 arrests were made in 2002 constituting a decrease of 5.5% over the year 2001.

DRUG ABUSE ARRESTS- There were *24,595 reported drug abuse arrests. Of this number, 13.0% were persons under 18 years of age.

DUI ARRESTS- A total of *35,193 arrests were made for DUI, which constituted 14.3% of the total arrests reported in 2002. This percentage represents the arrests of 34,644 adults and 549 juveniles.

*See page 29 for non-reporting agencies.

**LAW ENFORCEMENT
EMPLOYEES-**

In 2002 there were 14,002 full-time law enforcement employees in the State of Washington. Commissioned officers showed a decrease of 0.9% over 2001.

POPULATION-

**The estimated population in Washington for 2002 was 6,041,700 as compared to 5,974,900 for 2001. This represents a 1.1% increase.

DOMESTIC VIOLENCE-

There were 50,121 domestic violence offenses including simple assault and violation of protection/no contact orders. A total of 241 law enforcement agencies participated in this data collection.

HATE/BIAS CRIME-

There were 175 reported hate bias crime incidents by 258 law enforcement agencies. Of the 175 incidents, there were 177 hate/bias offenses. Of the 258 reporting agencies, 215 reported zero hate crimes. It is important to remember that there can be more than one offense within a single incident.

INTRODUCTION

This is the twenty-fourth annual report of criminal offenses, arrests, law enforcement officers killed or assaulted, and full-time law enforcement employees produced by the Washington Uniform Crime Reporting Program (WUCR). Funding for WUCR is provided by a contract agreed upon with the Washington State Criminal Justice Training Commission (CJTC). Administration of WUCR is the responsibility of the Washington Association of Sheriffs and Police Chiefs (WASPC). WUCR is unique in that it is the only state UCR program which is sponsored, administered and supported by an organization of contributing agency administrators, rather than a bureau or department of state government.

WASHINGTON UNIFORM CRIME REPORTING PROGRAM

Although the impetus for collecting nationwide crime information dates back to the 1890's, no ongoing program was initiated until the committee on uniform crime records of the International Association of Chiefs of Police (IACP) was established in 1917. This committee's responsibility to provide management information to law enforcement agencies was eventually turned over to the Federal Bureau of Investigation (FBI) in 1930, when the FBI received a congressional mandate to collect and disseminate national crime information. The IACP has continued to serve the Uniform Crime Reporting Program (UCR) in an advisory capacity and has been joined in this responsibility by the National Sheriffs Association.

Data for **Crime in Washington State 2002** are compiled from monthly UCR reports submitted by individual law enforcement agencies throughout the State of Washington. WUCR was activated in October 1979 and began the collection of monthly reports from contributing agencies in January 1980. At the present time, the UCR program is operated on a semi-annual and computerized basis. The computer program is designed to provide automated data input processing and provides various programs that are necessary for statistical purposes in the criminal justice system.

OBJECTIVES OF WASHINGTON'S UCR

Increasing attention has been focused on the problem of crime in our communities in recent years. Because of this attention, many segments of our population need more complete information for a variety of reasons.

Citizens are understandably concerned about the possibility of becoming victims of crime but may not know what the real probability is. Law enforcement professionals, managers and administrators who must focus on crime in their own jurisdictions, also need to know what is occurring in surrounding jurisdictions in order to deploy personnel and equipment more efficiently to protect citizens and bring criminals to justice. Legislators need statewide information about crime in order to pass realistic laws that will increase the stability of our society. Researchers and planners need to know what is actually happening to predict trends and recommend changes.

The objectives of **Crime in Washington State 2002** are to implement and administer a uniform system of collecting crime and arrest statistical data from contributing law enforcement agencies in the State of Washington and present the information needed by each of these groups. This information will not in itself prevent crime, but it may encourage segments of society to understand the problem and to work together with law enforcement agencies to reduce crime. Additional objectives of **Crime in Washington State 2002** when compiled and evaluated are:

1. To identify the number of crimes reported by contributing agencies.
2. To identify the geographical distribution of reported offenses.
3. To determine whether or not reported crimes have increased or decreased.
4. To determine whether or not reported crimes have increased or decreased by population groups.
5. To determine the number of clearances and the clearance rate for reported offenses.
6. To determine the reported number of arrests by charge, age, sex and ethnic origin.
7. To determine the number of law enforcement officers assaulted and killed.
8. To determine the number of commissioned (sworn) and civilian law enforcement employees by sex.
9. To determine the rate per population group of commissioned (sworn) and civilian law enforcement employees.

CRIME FACTORS

Care should be taken in drawing conclusions and making decisions about problems based solely on crime and arrest data that is reported to WUCR. Factors relating to crime reporting practices, law enforcement policies, population characteristics and attitudes all contribute to variation in reported data. Some general factors which may affect the amount of crime reported and type of crime committed are:

1. The density and size of the community population and of its surrounding area.
2. The variations in composition of the population, particularly to age.
3. The economic status, education and recreation characteristics of the community population.
4. The stability of population with respect to residents' mobility, commuting patterns, and transient factors.
5. The climate, including seasonal weather conditions, and other geographical variations.
6. The religious characteristics of the population.
7. The effective strength of law enforcement agencies.
8. The policies of other components of the criminal justice system (i.e., prosecutorial, judicial, correctional and probational).
9. The attitude of the public toward law enforcement problems.
10. The crime reporting practices of the citizenry.
11. The administrative and investigative follow-up of the local law enforcement agency, including the degree of adherence to crime reporting standards.

WUCR STATISTICAL INTERPRETATION

Statistics are a tool used to summarize information so that patterns or trends become clearer. All statistics must be interpreted with an understanding of just what it is that they can say. Too often, numbers of the type in this report are used incorrectly to draw conclusions that the statistics simply do not support. In order to avoid this error, it is necessary to know what information is included and how it is reported.

To obtain accurate information from many different agencies, the national UCR program has to precisely define the methods for counting the number of offenses, arrests, clearances and value of stolen or recovered property. The methods of counting and some resulting limitations are explained below.

Classification of Offenses

UCR divides offenses into two major classifications which are designated Part I and Part II offenses. This distinction is important to keep in mind because different information is collected for each. Part I offenses include (1) violent crimes: murder and non-negligent manslaughter, forcible rape, robbery, and aggravated assault; and (2) property crimes: burglary, larceny-theft, motor vehicle theft and (since January, 1979) arson. These reported Part I offenses comprise the FBI crime index. All other offenses are classified under Part II offenses. Part I offenses are used to calculate the crime index and crime rate.

All offenses are classified on the basis of law enforcement investigation in accordance with UCR offense definitions (which are not necessarily identical to the revised code of Washington definitions). Because WUCR identifies and tallies a police problem, offense classifications are not based on the findings of a court, medical examiner, jury or other judicial findings.

Counting the Offenses

The number of offenses is counted only for Part I crimes and simple assault. The method of counting varies with the type of crime committed, and it is important to remember that the number of offenders does not determine the number of offenses.

For murder, non-negligent manslaughter, forcible rape and aggravated assault, one offense is counted for EACH VICTIM, regardless of the number of offenders involved.

For robbery and larceny, one offense is counted for EACH DISTINCT OPERATION that is separate in time and place. The number of victims in any one operation does not determine the number of offenses. For example, if 20 people are robbed in a bar at the same time, only one offense has occurred. However, if that robber leaves the bar and holds up a passerby, a second offense has occurred. For burglary, one offense is counted for each structure that is illegally entered. However, when the structure is an apartment house, business, or office building in which units are leased for a period of time, one offense is counted for each unit burglarized.

For motor vehicle theft, one offense is counted for each vehicle stolen.

NOTE: Attempts to commit any of the crime index offenses are counted as actual offenses, except that attempts to kill and assault to kill are counted as aggravated assaults.

For multiple offenses that occur in one crime incident, only the most serious offense is counted. Part I crimes are ranked according to seriousness and appear in order from most serious to least serious crimes. Example: a robber takes a man's wallet and then beats him causing serious injury. Both a robbery and an aggravated assault have occurred, but because robbery is considered by UCR to be more serious, only the robbery is counted. This is known as the **HIERARCHY RULE**. From one perspective, this method of counting seriously understates the crime problem, but from another, it prevents undue inflation of crime statistics.

- NOTE:**
1. Arson is an exception to the above rule and is counted separately from other offenses.
 2. The number of offenses is not reported for Part II offenses.

Arrests

Arrest information is collected for all Part I and Part II offenses according to the age, sex and race of the offender. It is not possible, however, to correlate race with sex or specific ages because the information is collected independently, thus limiting analysis. Furthermore, arrest figures cannot be directly related to the number of crimes cleared because the arrest totals count all offenders arrested for each offense, and clearance-totals count only the offense for which an arrest or arrests have occurred.

Clearances

An offense is considered cleared (solved) when at least one offender is arrested for a crime, even though several may have been involved. Offenses may also be cleared by exceptional means when the offender commits suicide, makes a dying declaration, confesses while in custody or serving time for another crime, is prosecuted in another jurisdiction for the same offense, is a juvenile who is handled by notifying the parents, or when the victim refuses to prosecute or another jurisdiction refuses to extradite the offender, etc.

Clearances are counted as "adult" and "juvenile". A "juvenile" clearance is counted only when juveniles are exclusively involved in the clearance of an offense. If the arrest of both adults and juveniles result in a clearance, it is counted as an "adult" clearance.

NOTE: Not all crimes are cleared within the calendar year in which the offense occurs.

Information Grouping

The crime statistics reported by an individual agency indicate what is happening in one particular area, but to make rational comparisons among a number of jurisdictions, communities with similar characteristics need to be grouped together. It may be important to know how a city compares with cities of similar size, or how patterns of crime differ in various types of communities. Grouping agencies with similar characteristics allows these determinations to be made. Aside from being merely interesting, such comparative analysis provides the basic information for long-range criminal justice planning.

WUCR groups jurisdictions on the basis of population size in this report, and if any types of comparisons are to be made the reader should also consider what types of communities are being compared. Grouping by population size considers only the population of the reporting area. It does not consider proximity to a major metropolitan area in spite of the fact that widely different crime patterns could be expected in a city of 30,000 which is a suburb of Seattle or Tacoma and one which is in a rural area. In this report, grouping by population does not take into account the urban/suburban/rural character of the area, and includes a wide range of populations in each category. For use in interpreting this report, the WUCR grouping systems are listed below:

POPULATION GROUPINGS - CITIES, TOWNS AND SHERIFFS DEPARTMENTS

<u>GROUP</u>	<u>POPULATION</u>
1	over 250,000
2	100,000 to 250,000
3	50,000 to 100,000
4	25,000 to 50,000
5	10,000 to 25,000
6	5,000 to 10,000
7	2,500 to 5,000
8	under 2,500

CRIME INDEX

The crime index is a basic measure of crime which can be used for comparing the extent of crime among cities, counties and states of similar size. The index is simply the total number of certain offenses that occur in a given area in a given calendar period (usually quarterly and annually). The offenses are murder and non-negligent homicide, forcible rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft and arson-- all of the Part I offenses except simple assault and manslaughter by negligence.

The offenses were selected as indicators of the total amount of criminal activity because they are serious offenses that are the focus of widespread concern. They occur with sufficient frequency to reflect fluctuations in the overall level of criminal activity. They are most likely to be reported and reported accurately, to law enforcement due to their seriousness. They are offenses that can clearly and specifically be defined. Notwithstanding its usefulness, the index does have limitations.

The relationship between the index offenses and total criminal activity, both reported and unreported, has never been firmly established. The varying severity of offenses is not taken into account, resulting in equal weight being given to a shoplifting and a forcible rape. Furthermore, the actual incidence of crime in a city may not be accurately depicted by the index if the majority of the city's crime involves non-index offenses such as gambling and narcotics.

CRIME RATE

The crime rate is based on the index, but adjusts the index for variances in population by indicating the number of index offenses for each 1,000 persons (other base population increments may be used such as the number of index offenses per 100,000). This means, that comparisons may be made among several areas with different populations, or within one area with different populations over a period of time, without the information being biased by population differences. For most general comparisons, the crime rate is probably the most accurate to use.

To calculate the crime rate, first divide the population of the area by 1,000, and divide the crime index by that answer. For example, if a city has a population of 273,000 and a crime index of 21,257 the calculations would be:

1. 273,000 divided by 1,000 = 273.0
2. 21,257 divided by 273.0 = 77.86

Thus, although the city's crime index is 21,257, its crime rate (the number of crimes for each 1,000 people) is 77.86.

LAW ENFORCEMENT CODE OF ETHICS

AS A LAW ENFORCEMENT OFFICER, my fundamental duty is to serve the community; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation and the peaceful against violence or disorder; and to respect the constitutional rights of all to liberty, equality and justice.

I WILL keep my private life unsullied as an example to all and will behave in a manner that does not bring discredit to me or to my agency. I will maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed both in my personal and official life, I will be exemplary in obeying the law and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I WILL never act officiously or permit personal feelings, prejudices, political beliefs, aspirations, animosities, or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

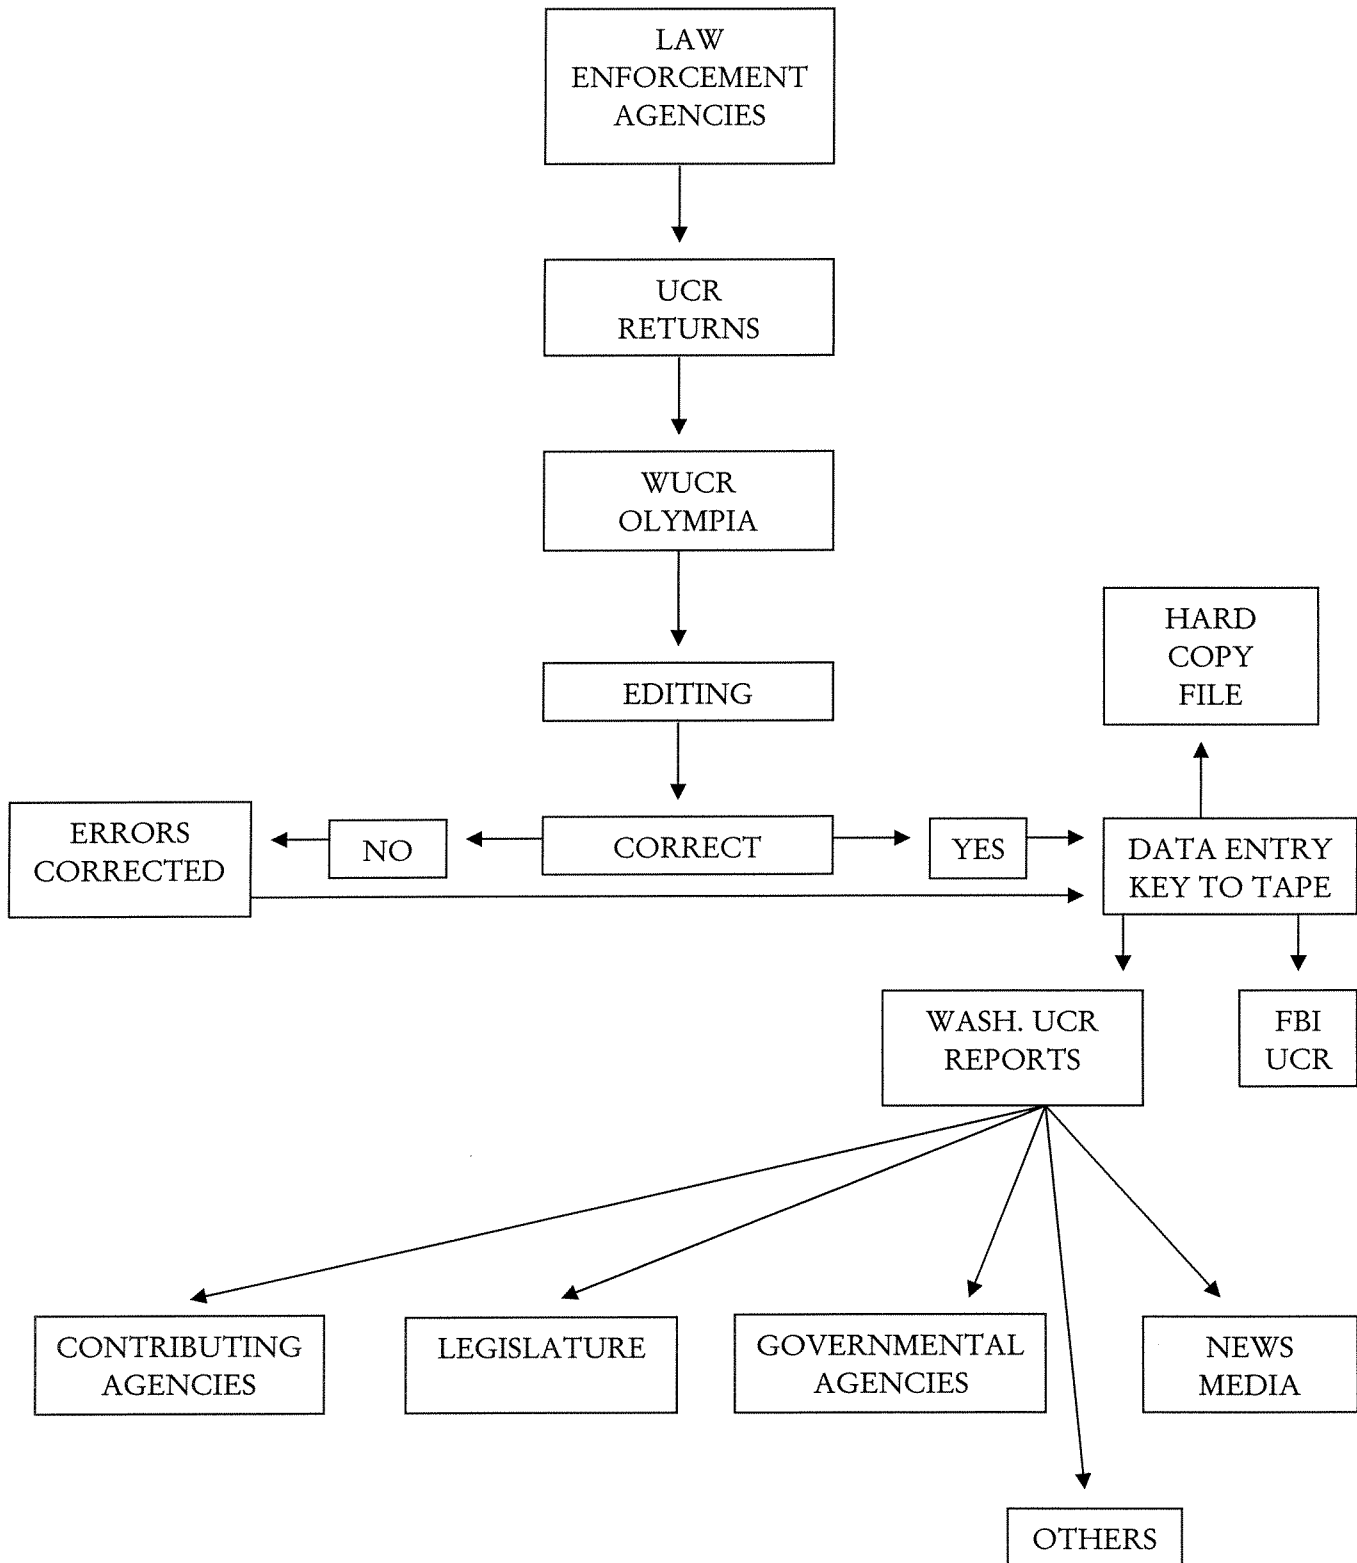

I RECOGNIZE the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of police service. I will never engage in acts of corruption or bribery, nor will I condone such acts by other police officers. I will cooperate with all legally authorized agencies and their representatives in the pursuit of justice.

I KNOW that I alone am responsible for my own standard of professional performance and will take every reasonable opportunity to enhance and improve my level of knowledge and competence.

I WILL constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession...law enforcement.

Law Enforcement Officers Assaulted

Officers Assaulted Each Year

WASHINGTON ASSOCIATION OF
SHERIFFS AND POLICE CHIEF

“In Memoriam”

*Deputy Sheriff Richard Herzog
King County Sheriffs Office*

On June 22, 2002, Deputy Sheriff Richard Herzog responded to a call of a naked man blocking traffic. Deputy Herzog encountered the man who was standing in the middle of the road, naked and screaming.

Deputy Herzog did not have the luxury of waiting for backup. He calmly approached the man and tried to diffuse the situation. The offender charged Deputy Herzog and he used pepper spray to try to subdue his attacker.

The pepper spray did not stop the charge and the offender tackled Deputy Herzog, knocking his service firearm to the ground. The offender grabbed the gun and fatally shot Deputy Herzog.

The offender ran back to his apartment and later surrendered.

Deputy Sheriff Richard Herzog had been with the King County Sheriffs Office for a little over 7 years. He is survived by his wife SunCha and two daughters, Sonja and Erika. He is also survived by his mother and father, Frank and Beverly Herzog and four brothers and sisters.

Law Enforcement Officers Killed or Assaulted

Law enforcement officers may become victims of assault as a consequence of their occupations. The Uniform Crime Report addresses all assaults on officers, which involve more than mere verbal abuse or minor resistance to an arrest.

In 2002, one law enforcement officer was feloniously killed in the line of duty in the State of Washington.

In 2002, contributing agencies reported 1,144 officer assaults with 19.5% of the total assaults resulting in personal injury to the officer. The type of activity in which an officer was most likely to be assaulted was responding to disturbance calls, which accounted for 31.2% of the total officers assaulted. Other activities of significance were: Attempting other arrests, 17.0% of the total; investigating suspicious persons or circumstances, 12.2% of the total; traffic pursuits and stops, 10.8% of the total; and handling, transporting prisoners, 9.4% of the total.

Hands, fists, and feet were used in 84.7% of the total assaults, followed by other dangerous weapon, 11.3%; firearm, 2.5%; and knife or cutting instrument, 1.5%. The type of assignment in which most assaults occurred was a one officer vehicle assisted, resulting in 553 assaults or 48.3%, followed by one officer vehicle alone, with 270 assaults or 23.6%. During a 24-hour period using 8-hour shifts, 8 p.m. to 4 a.m. reflected the most assaults, 522 assaults, or 45.6% of the total. The fewest assaults occurred between 4 a.m. and 12 p.m., 207 or 18.1%.

These facts show that officers stand the highest risk of assault when responding to disturbance calls between the hours of 8 p.m. and 4 a.m., in a one-officer vehicle. The offender is most likely to use his hands, fists, and feet as a weapon.

During 2002, police assaults were cleared (by arrest or exceptional means) 92.8% of the time.

Hate Crime Trend 1995 - 2002

HATE BIAS INTRODUCTION

In response to the passage of the Hate Crime Statistics Act of 1990, the Washington State Legislature directed every law enforcement agency within Washington to report hate bias offenses to the Washington Association of Sheriffs and Police Chiefs.

FBI reporting guidelines and forms are used, and the data is forwarded to the FBI for inclusion in the national statistics. In keeping with the Washington State Anti-Harassment Act, two additional motivational categories were added for our state: anti-disability (physical, mental, sensory), and anti-gender (male and female). Hate crime offenses with an anti-handicap or anti-gender motivation are not forwarded to the FBI.

Determining the prevalence of hate crime is an important responsibility for the entire law enforcement community. Tremendous interest has been shown by the general public, law enforcement agencies, legislative bodies, human interest groups, and others relative to the collection of hate crime data.

The commitment of Washington State law enforcement is the key to the success of Washington State's hate crime data collection program. Without law enforcement's active participation in the collection of these statistics, this report would not be possible.

Hate Crime Definition

The Washington Hate Crime Malicious Harassment Act defines hate crime as criminal offenses that manifest evidence motivated by the offender's bias against the victim's race, religion, ethnicity, sexual orientation, disability or gender.

It was recognized that hate crimes are not separate, distinct offenses, but rather traditional crimes motivated by the offender's bias. Because of the difficulty of ascertaining the offender's subjective motivation, bias would be reported when the law enforcement investigation revealed sufficient objective facts to lead a reasonable person to conclude that the offender's actions were motivated, in whole or in part, by bias.

2002 HATE BIAS CRIME

Volume

During 2002, 175 bias motivated criminal incidents were reported by 258 law enforcement agencies in 39 counties. The 175 incidents involved 177 separate offenses, 238 victims, and 173 known offenders. It is important to remember that there can be more than one offense within a single incident.

Offenses

Crimes against persons comprised 71 percent of the 177 offenses reported during 2002. Intimidation was the single most frequently reported hate crime among all offenses measured, accounting for 40 percent of the total. Following were vandalism of property, 27 percent; simple assault, 19 percent; aggravated assault, 11 percent; and robbery, burglary, larceny, motor vehicle theft, arson, totaling 3 percent. There were no murder or rape offenses related to hate crime in 2002.

WUCR GLOSSARY

ACTUAL OFFENSE:

An offense which law enforcement personnel confirm to have happened.

ADULT:

A person who is 18 years of age or older at the time of committing a crime.

ALL OTHER OFFENSES:

State and local offenses not otherwise specified.

ARRESTS:

The act of taking a person into custody by authority of law to charge him or her with a criminal offense. An adult arrest should be reported when a law enforcement officer detains an individual with the express intent of seeking charges against this person for a specific criminal offense(s) and a record is made of the detention.

ARSON:

Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc...

ASSAULT, AGGRAVATED:

An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm. All assaults by one person upon another with the intent to kill, maim, or inflict severe bodily injury with the use of any dangerous weapon are classified as aggravated.

ASSAULT, SIMPLE:

An unlawful attack or attempted attack by one person upon another in which no weapon was used and which did not result in serious or aggravated injury to the victim.

BURGLARY:

The unlawful entry of a structure to commit a felony or a theft.

CLEARANCE:

The solving of an offense by arrest, or in some circumstances, by exceptional means.

CLEARANCE RATE:

Percentage of the total crimes cleared compared to the number reported.

Example:

- a. Number of robbery clearances, 38
- b. Number of total robberies, 72
Divide: $38 \text{ by } 72 = .528$
Multiply: $.528 \times 100 = 52.8$
- c. 52.8% clearance rate for robberies.

CRIMES AGAINST PERSONS:

Subclassification of the Crime Index which encompasses murder and non-negligent manslaughter, rape, and aggravated assault.

CRIMES AGAINST PROPERTY:

Subclassification of the Crime Index which encompasses robbery, burglary, larceny (theft), motor vehicle theft and arson.

CRIME INDEX:

Classification of eight offenses selected for their seriousness, frequency of occurrence, and likelihood of being reported. Includes murder and non-negligent manslaughter, rape, robbery, aggravated assault, burglary, larceny (theft), motor vehicle theft and arson.

CURFEW AND LOITERING LAWS - PERSONS UNDER 18:

Transgressions of curfew or loitering ordinances pertaining to juveniles.

DISORDERLY CONDUCT:

Committing or attempting to commit a breach of the peace. Includes affray, unlawful assembly, disturbing the peace, disturbing meetings, disorderly conduct in state institutions, blasphemy, profanity, and obscene language, desecrating the flag, and refusing to assist an officer.

DRIVING UNDER THE INFLUENCE:

The driving or operating of any vehicle or common carrier while drunk or under the influence of liquor or narcotics. This includes operating a motor vehicle, engine, train, street car, boat, etc., while intoxicated.

DRUG ABUSE VIOLATION:

Transgression of state and local laws relating to the unlawful possession, sale, use, growing, manufacturing, and making of narcotic drugs.

DRUNKENNESS:

Not applicable in Washington State, (except on Indian reservations).

EMBEZZLEMENT:

Misappropriation or misapplication of money or property entrusted to one's care, custody, or control.

FORGERY AND COUNTERFEITING:

All offenses dealing with the making, altering, uttering, or possessing with intent to defraud, anything false in the semblance of that which is true.

FRAUD:

Converting and obtaining money or property by false pretenses other than forgery or counterfeiting.

GAMBLING:

Promoting, permitting, or engaging in illegal games of chance.

INCENDIARY:

Involving a deliberate burning of property.

JUVENILE:

A person who is under the age of 18 at the time of committing a crime.

LARCENY (THEFT):

The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another or the attempt to do so.

LAW ENFORCEMENT EMPLOYEE RATE:

The number of employees per 1,000 inhabitants. Divide the jurisdiction's population by 1,000 and divide the number of employees in the law enforcement agency by this number.

LIQUOR LAW VIOLATION:

Transgression of any state or local liquor law except drunkenness and driving while intoxicated.

MOTOR VEHICLE THEFT:

The theft or attempted theft of a self-propelled vehicle that runs on the surface and not on rails.

MURDER AND NON-NEGLIGENT MANSLAUGHTER:

The willful (non-negligent) killing of one human being by another.

PART I OFFENSES:

Eight major offenses as defined in the Crime Index.

PART II OFFENSES:

All other crime classifications outside those defined as Part I.

PROPERTY CRIMES:

Subclassification of the Crime Index which encompasses burglary, larceny (theft), motor vehicle theft and arson.

PROSTITUTION AND COMMERCIALIZED VICE:

Committing or attempting to commit sex offenses of a commercialized nature.

RAPE:

The carnal knowledge of a female forcibly and against her will. Rapes or attempts accomplished by force or threat of force are classified as forcible regardless of the age of the female victim.

REPORTED OFFENSE:

An act which comes to the attention of law enforcement authorities as a possible offense.

ROBBERY:

The taking or attempting to take anything of value from the care, custody or control of a person or persons by force or threat of force or violence and/or putting the victim in fear.

RUNAWAY:

Protective custody of juveniles under local statute.

SEX OFFENSES:

Offenses against chastity, common decency, morals, and the like, other than forcible rape, prostitution and commercialized vice.

STOLEN PROPERTY, BUYING, RECEIVING AND POSSESSING:

Buying, receiving, and possessing stolen property or the attempt to commit such an offense.

UNFOUNDED OFFENSE:

An act reported to law enforcement authorities which, upon investigation, proves to be false or baseless.

VAGRANCY:

Offenses of vagrancy, begging, loitering (adults), vagabondage and being a "suspicious character or person, etc."

VANDALISM:

The willful or malicious destruction, injury, disfigurement, or defacing of any public or private property, real or personal, without consent of the owner or person having custody or control, by cutting, tearing, breaking, marking, painting, drawing, covering with filth, or any other such means as may be specified by local law.

VIOLENT CRIMES:

Subclassification of the Crime Index which encompasses murder and non-negligent manslaughter, rape, robbery, and aggravated assault.

WEAPON OFFENSES:

Offenses and attempted offenses against weapons regulations. Includes manufacture, sale, possession, or carrying open or concealed deadly weapons or silencers; furnishing deadly weapons to minors; possession of deadly weapons by aliens.
