

One-Piece GPS Offender Tracking System

One-Piece GPS Tracking System

Featuring

- Full Home Curfew Supervision
- Battery life: 36+ hours on a single charge

Accurate and Reliable GPS Offender Tracking

3M™ One-Piece GPS Tracking System was designed for offender monitoring operations where agencies seek accurate and reliable near real-time tracking.

The 3M™ One-Piece GPS Tracking System offers a robust integration of tracking, communication and mapping technologies that enable operators to efficiently track offenders, indoors and out, at varying levels of intensity.

Effective Tracking with Full Home Curfew Supervision

The 3M™ One-Piece GPS Tracking System also serves as a home curfew monitoring system, and will report on technical events or violations of schedule restrictions, enabling agencies to apply home curfew restrictions in line with their program.
