

Two-Piece GPS Offender Tracking System

- Lightweight design
- Case tamper detection
- Sealed, splash-proof and shock resistant

- Simple activation
- Shock resistant and waterproof
- 1 year battery life
- 7 day advanced notice before replacement of battery
- Compatible with other 3M monitoring and tracking devices

3M Electronic Monitoring has incorporated nearly two decades of extensive industry experience with leading location and communication technologies, bringing to market an easy-to-use premium two-piece GPS tracking system.

Efficiency & Simplicity in Offender Tracking

- Multiple communication means with tracked offenders
 - Two-way voice communication
 - Audible and/or vibrating alerts
 - Text messages displayed on the LCD screen
- Backup landline communication
- Stores up to 30-days of tracking data in non-volatile memory
- Multiple anti-tamper measures
- Continuous tracking functionalities during disrupted communication periods
- Web-based user interface
- Individual schedules and zone restrictions
- Web-based configurable reports
