

# Additional Information

## Notifications

---

### **WA VINE Death Notifications**

WA VINE death notifications do not state an offender has died. The notifications indicate that a change in custody status has occurred, this is not an emergency, and direct the registrant to contact the facility for additional information. Notifications also include a disclaimer that the facility may not be able to immediately provide additional information right away.

### **WA VINE Protective Order Service Notification**

WA VINE Protective Order service notifications include the following disclaimer: "A Proof of Service filed with the court does not necessarily mean that legal service was properly completed. Filing a Proof of Service is only a representation that service was attempted or claimed to be completed. Please contact the agency that serviced the order to verify the status."

### **WA VINE Advanced Notifications**

WA VINE does not provide advanced release notifications.
